22nd June 2022

Dear Synergy Learning,

Re: UX Developer Role

I would like to apply for the UX Developer role, advertised through the MCS Group Recruitment Agency. As requested, I am enclosing my CV.

I have four years experience working with web technologies, with excellent experience and knowledge of HTML, CSS, Javascript, jQuery, PHP, Classic ASP and MySQL.

My knowledge was gained from developing online booking pages for Holiday Parks and Campsites, throughout the UK, Ireland, France, Canada and Australia.

I have excellent analytical skills, as well as a keen eye to detail, to ensure the end results meets client expectations. My current role ensures that I am interacting with high profile clients, within the Holiday Park industry.

Based on the key responsibilities and essential skills/qualities of this advertised role, I believe I would be the perfect fit for your company.

I look forward to hearing from you.

Yours sincerely

Gary Stewart
